ABSTRACT : The concept of entrepreneurial development involves equipping a person the required information and knowledge used for enterprise building and polishing his entrepreneurial skills. In these days,

entrepreneurial development programmes are treated as an important tool of industrialisation, and a solution of unemployment problem of India. In the present paper an attempt has been made to study the entrepreneurship development (ED) process in India and the role of entrepreneurship development programme in the economic growth of a nation. The data used for the purpose of study are mainly from secondary source.

KEYWORDS; Entrepreneurship development ,Entrepreneurship development programmes, Economic growth.

INTRODUCTION

Entrepreneurs shape economic destiny of nations by creating wealth and employment, offering products and services and generating taxes for government because of which entrepreneurship has closely been linked to economic growth of a country. Entrepreneurs convert ideas into economic opportunities through innovations which are considered to be major source of competitiveness in an increasingly globalizing world economy. Therefore, most governments in the world strive to augment supply of competent and globally competitive entrepreneurs in their respective countries. Entrepreneurial development is a systematic and an organized development of a person to an entrepreneur.
