

Women Entrepreneurship in India

Mrs Anita, Asstt. Prof. in commerce, R.G.M. Uchana (Jind) Haryana

1. Abstract- Entrepreneurship refers to the act of setting up of a new business so as to take advantages from new opportunities. Entrepreneurship has been a male dominated phenomenon from the very early age but at present situation has been changed women is considered as most memorable and inspirational entrepreneurs. But women entrepreneurs often face gender-based barrier to starting and growing their business like discriminatory property, matrimonial and inheritance laws and cultural practice, lack of access to formal finance mechanisms, limited mobility and access to information and networks etc. To overcome these problem, govt and various NGO take actively participate through various schemes and policy.

Key words: Entrepreneur, women, schemes dominated.

2. Introduction:- In the history of development women's participation is important compared to man. The economic and social activities performed by them is a significant indicator of nations overall progress. There are many problems faced by Indian women to work. Women are considered as weaker sex and also made to depend on men throughout their life. The Indian culture made them only subordinate and executor made by the other male members. But facing these problems, Indian woman start his contribution in each .
