

SIGNIFICANCE OF HISTORIOGRAPHY

Rakesh Rana

Introduction : Historiography is the study of how history itself is written or handed down throughout the ages. It takes into consideration the various means by which a historical source is formed, such as the credibility of the sources used, the motives of the author composing the history, and its authenticity. Historiography can be regarded as a form of meta-history. The word history comes from the Ancient Greek "historia," which means "inquiry, knowledge acquired by investigation." The existence of historical sources provides valuable information concerning the past. Historiographers tend to differentiate these sources in terms of written and oral histories. Oral history is a more dynamic because it is spread by word of mouth, while written history is fixed and emphasizes the recording of facts.

Key Words : Historiography

Historiography tries to place these various sources into a specific context. This means that the historiographer does not merely accept the content of a source at face value, but traces the source looking for various motifs in its formation. One can understand a historical source as conceived from within a certain perspective and with a precise objective tied to its very production. Historical events can be seen as biased by the particularities of their recording and presentation. The historiographer acts like a history detective, seeking to unravel the logic of the production of history.

One of the questions the historiographer must ask is how some facts remain included or excluded from a history. Inclusions or exclusions can be found by comparing different accounts of a single event. In contrasting these sources, one can understand not only the event from a less biased perspective, but identify the precise perspective of the composer of the source. According to this perspective, historiography delineates the influence of cultural or ideological tropes within any given source. Historiographers can thereby classify history in terms of categories such as a Christian historiography or an Ancient Greek historiography. This allows the historiographer to look for trends in historical writing within a certain framework that illuminates a particular way of writing history. For example, Christian history tends to
